Description

Steps to reproduce:

1. Open SauceDemo
2. Log in with problem_user
3. On the Products page, click the sorting dropdown
4. Select **Price (low to high)** from the sorting dropdown
5. Observe the sorting dropdown

Test Data:

Username: problem_user
Password: secret_sauce
Sort option: Price (low to high)

Expected Result:

The dropdown should change to **Price (low to high)** and products should be sorted accordingly

For example:

7.99$ → 9.99$ → 11.99$ → 29.99$

Actual Result:

The dropdown remains set to **Name (A to Z)**, and the product order does not change

Environment:

Windows 11, Google Chrome

Priority: Medium
Severity: Medium
Status: Open
